of *Sharia*. They managed to exploit and mislead many people of FATA, KP and even Punjab that they were fighting for imposition of *Sharia* and to avenge the deaths of fellow tribesmen.

In Swat, Maulvi Fazlullah had promoted propaganda for the imposition of *Sharia*, which according to him would provide justice to the people of Swat.

This was difficult for the government to tackle. Fight against cultures and perceptions is tougher and much more difficult than the actual battle on the ground. It took a long time to overcome these irritants and impediments, although not completely.

THE DRONE EFFECTS

The US drone campaign in the tribal areas of Pakistan, where the insurgents and terrorists were operating, is a mixed bag of relief and grief. It killed dreaded terrorists belonging to Al Qaeda, its affiliates like IMU and to top all TTP, which is indeed a matter of relief for Pakistan. Drone attacks killed two TTP chiefs, Baitullah Mehsud and Hakimullah Mehsud. The most wanted mastermind of the horrendous attack on the Army Public School Peshawar on 16 December 2014 was also killed in a drone attack on 12 July 2016. On the other hand, the collateral damage caused by drone attacks is a matter of concern and grief.

Over years, it has attracted huge public resentment against this campaign.

The CIA-operated unmanned intelligence aircrafts, namely the Predator and the Reaper, had been firing drone attacks on Al Qaeda members in FATA since 2006. Later, TTP militants also became the target of drone attacks. According to some estimates, at least 20 high-profile Al Qaeda commanders and 40 TTP militants were killed until April 2012. This campaign destroyed many of Al Qaeda and TTP bases and safe houses (Spain, 1962).

There was resentment among the Pashtuns in particular and the Pakistanis in general over this invisible invasion and innocent civilian casualties. This sentiment had flared up when the first drone on a seminary in Damadola, Bajaur, in 2006 resulted in the deaths of locals including young students. This one incident played a vital role in the unpopularity of General Musharraf and the subsequent rout of his king's
