Akbar Bugti by President General Pervez Musharraf. According to the government of Pakistan, India had taken advantage of the situation by constantly striking by aiding the rebels and carrying out clandestine subversive operations in Balochistan.

Subsequent governments of Pakistan expressed their concern over Indian activities in Balochistan. In 2010, the Interior Minister of Pakistan, Rehman Malik, had categorically told the Senate (Upper House) of Pakistan that India was interfering in Balochistan and that Baloch dissidents were imparting military training in training camps in Afghanistan (under the supervision of Indian agencies) (*The News International*, 2010). However, the evidence of alleged Indian involvement was not made public.

In September 2013, during a bilateral meeting on the sidelines of the UN General Assembly, the then Prime Minister of Pakistan Nawaz Sharif told the then Indian Prime Minister Manmohan Singh that terrorism was as much a concern of Pakistan as it was to India. Pakistan Foreign Secretary Jalil Abbas Jilani told the media that the Pakistan prime minister had also raised the issue of 'external interference in Balochistan'.

Pakistan had been striving hard to collect palpable evidence of the involvement of RAW in Balochistan, which could be presented to the world to substantiate its accusations. In March 2016, the counter intelligence set-ups managed to get hold of a high-level RAW agent from Balochistan, who happened to be an Indian naval officer. He was based in Chabahar, Iran, but operated in Balochistan. His confessional statement was aired on TV channels. Some excerpts of his statement are reproduced verbatim as follows:

> I am Commander Kulbhushan Jadhav. Number 41558Z. I am a serving officer of the Indian Navy. I am from the engineering cadre of the Indian Navy and my cover name was Hussein Mubarak Patel, which I had taken for doing some intelligence gathering for the Indian government agencies.
>
> I was picked by RAW in 2013 end. Ever since I have been directing various activities in Balochistan and Karachi at the behest of RAW.
>
> I was basically the man for Mr Anil Kumar Gupta who is the joint secretary, RAW, and his contacts in Pakistan, especially in the Baloch student organisation.
