In *Fateful Triangle*, Tanvi Madan argues that China's influence on the U.S.-India relationship is neither a recent nor a momentary phenomenon. Drawing on documents from India and the United States, she shows that American and Indian perceptions of and policy toward China significantly shaped U.S.-India relations in three crucial decades of the Cold War from 1949 to 1979. *Fateful Triangle* expands our understanding of the diplomatic history of U.S.-India relations by highlighting the key role of the China factor, reassesses the origins and practice of Indian foreign policy and nonalignment, restores India into the Asian story, and provides historical context and lessons for the China-India-U.S. triangle of today.

"In this exceptionally well-researched work, Tanvi Madan reveals the Cold War years as anything but a period of estrangement between Washington and New Delhi. In actuality, Indian and American responses to China shaped a constantly evolving U.S.-India understanding, including a robust assistance relationship premised in part on the importance of India's democracy. This insightful, carefully documented diplomatic history provides important lessons for American policymakers today, as a rising India charts its own course against a backdrop of concern about the liberal democratic order. A must-read for anyone interested in Asia, diplomatic history, international relations, the Cold War, and independent India during the twentieth century."

— Alyssa Ayres, senior fellow for India, Pakistan, and South Asia, Council on Foreign Relations

"Tanvi Madan's *Fateful Triangle* is a marvelous antidote to historical amnesia. Meticulously demonstrating that China has dogged U.S.-India ties since India's independence—eliciting the same hopes and ambiguities that mark the relationship today—this exceptional book will reeducate both scholars and policymakers alike."

— Ashley J. Tellis, Tata Chair for Strategic Affairs and senior fellow, Carnegie Endowment for International Peace

"A groundbreaking study. *Fateful Triangle* not only enriches our understanding of the history of U.S.-India relations, but also offers powerful insights on the possibilities—and limits—of U.S.-India cooperation in the face of a rising China."

— James B. Steinberg, University Professor, Social Science, International Affairs, and Law, The Maxwell School of Citizenship and Public Affairs, Syracuse University

TANVI MADAN is a senior fellow and director of the India Project in the Foreign Policy program at the Brookings Institution. Madan's work explores India's role in the world and its foreign policy, focusing in particular on India's relations with China and the United States.
