

Jan. 12/75

Kiwi Bete:

Received your letters and I am glad to know of the details. It is real achievement on strength of your both past and present records. God is great. He does reward you for your labours, your loyalty and your sincerity.

Now go ahead as you really should. you are a practical person and you have to use your other abilities too. Think what any other person with imagination would do if he/she was in your job? And I tell you, you will earn laurels that no one before has ever earned. It is good you are acquiring first hand knowledge from the person you are to succeed. You will be able to improve upon his doings.

Late I won't be coming to Delhi for your 28th January because of a few important things and I have to take the Commentary from the radio and the T.V. for my record. More again.

Love Daddy
