

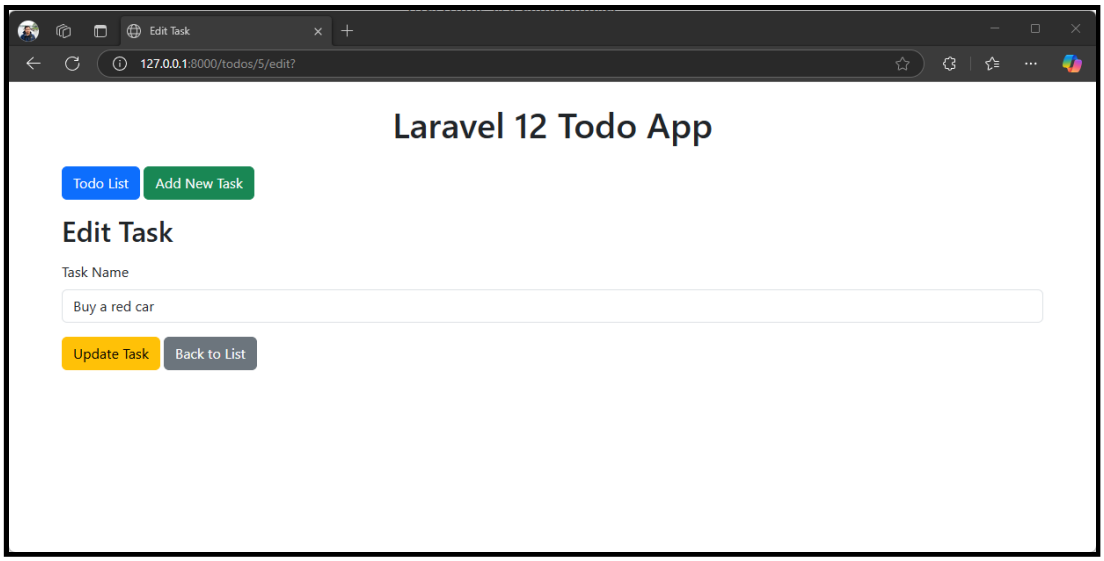

Figure 10.5: Edit task.

- Click **Delete** to remove a task

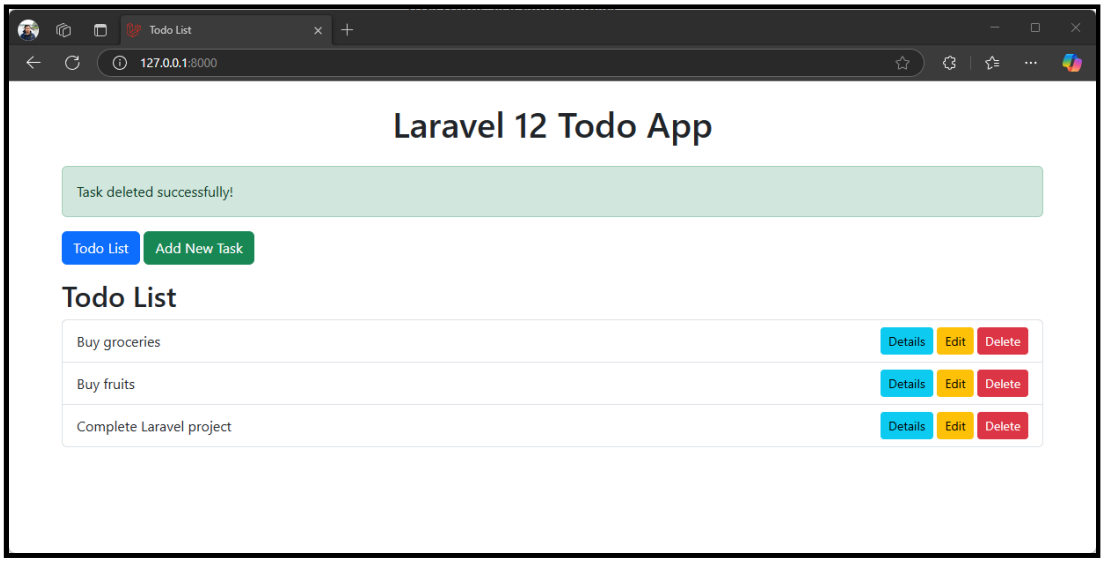

Figure 10.6: Delete task.

That’s it! You’ve successfully built a simple Todo web app using Laravel 12, Eloquent ORM, and SQLite.

10.5.7 Summary

In this hands-on lab, you have successfully:

- Created a new Laravel 12 project with SQLite as the database
- Configured the database connection in the `.env` file
