- `users` table
- Registration, login, logout features

13.8.4.4 Step 4: Register and Login via Web Interface

After completing the installation, run the following command to start the development server:

```
php artisan serve
```

Visit `http://localhost:8000`

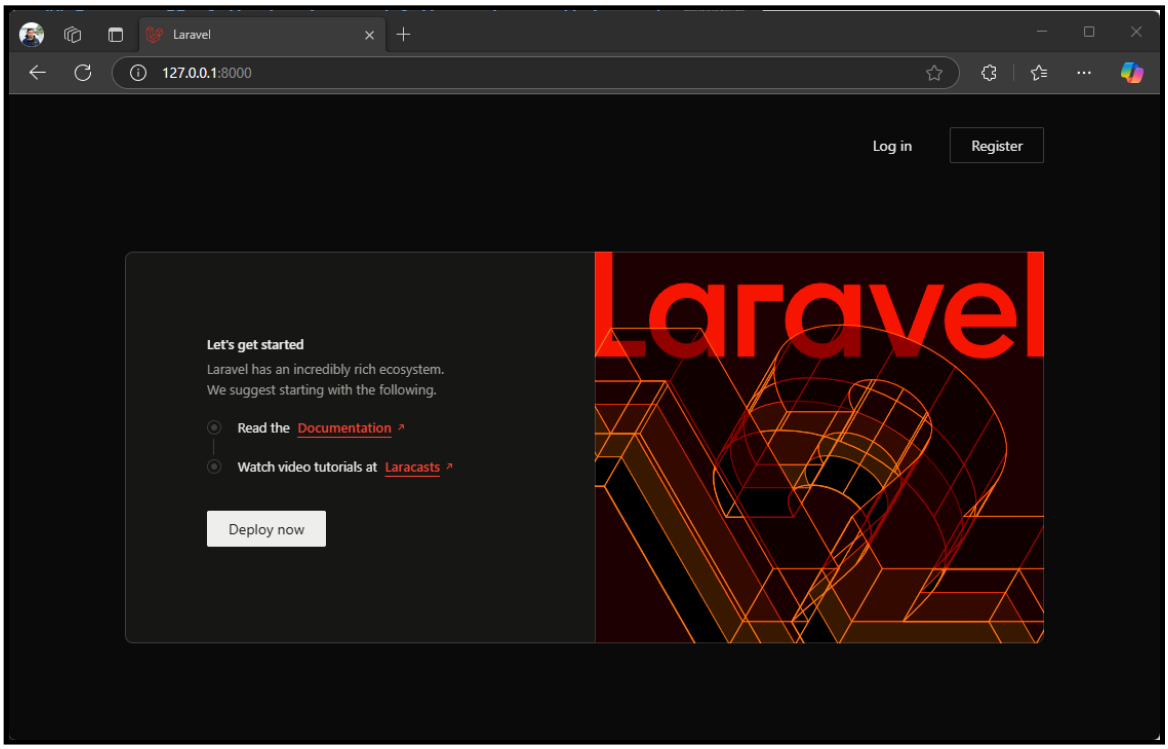

Figure 13.2: Laravel Breeze.

Then, we can register a new user by clicking on the **Register** link. Fill in the registration form with your details and click **Register**. This will create a new user in the database.
