Table 1.2 Global Competitiveness Index rankings (2017–18), p. 230

Notes: From the list of factors, respondents to the World Economic Forum's Executive Opinion Survey were asked to select the five most problematic factors for doing business in their country and to rank them between 1 (most problematic) and 5. The score corresponds to the responses weighted according to their rankings.

Table 1.3 Pakistan's HDI and Component Indicators for 2017 Relative to Selected Countries and Groups

	HDI Value	HDI Rank	Life Expectancy at Birth	Expected Years of Schooling	Mean Years of Schooling	GNI per Capita (PPP US$)
Pakistan	0.562	150	66.6	8.6	5.2	5,311
Bangladesh	0.608	136	72.8	11.4	5.8	3,677
India	0.640	130	68.8	12.3	6.4	6,353
South Asia	0.638	—	69.3	11.9	6.4	6,473
Median HDI	0.645	—	69.1	12.0	6.7	6,849

Note: HDI, human development indicators; GNI, gross national income; PPP Purchasing Power Parity

education. In comparison to its South Asian neighbours, Pakistan has been underperforming in human development indicators (HDI), as shown in Table 1.3 from the UNDP HDI report 2018 (UNDP, p. 3). The Pakistani state is not fulfilling its side of the bargain by failing to give what many consider basic rights to the common population.

Problems facing Pakistan

The current domestic and international challenges faced by the state include armed international conflict on its borders, domestic insurgency, a religiously radicalizing minority, and a corrupt government amidst 70 per cent urban
