Terminating Early 227
Traversing Multidimensional Arrays 227
Assignment During Iteration 228
Extracting Array Data 231
With list( ) 231
list( ) with Keys 231
With extract( ) 232
Fetching a Subset of Elements with array_slice( ) 236
Combining Arrays 237
With ... (Splat Operator) 238
With array_merge( ) 239
Splicing into Other Arrays 240
Combining into Associative Arrays 242
Replacing Elements with array_replace( ) 243
Comparing Arrays 244
Comparison Operators 245
Finding Uncommon Elements 246
Finding Common Elements 247
Comparing Keys 248
Comparing Keys and Values 249
Normalizing Keys 250
Comparing with Callbacks 251
Searching Arrays 258
Test Value Exists 258
Test Key Exists 258
Find Key of Value 260
Minimum and Maximum Values 260
Searching by Callback 261
Sorting Arrays 263
By Value 263
By Key 264
