Regular expression (*cont.*)
once-only sub-pattern, 574
PREG functions, 580–589
quantifiers, 565, 566
recursive sub-patterns, 579
sub-patterns, 568–571
syntax, 552, 553
Unicode properties, 559, 560
Relational database management system (RDBMS), 63
Replacement character, 528
Requests for comments (RFCs), 679
Resource paths, 688–693
Return-only types, 110, 120–123
Return type declarations, 111, 112
Return types, 123–124
Reusability, 286
RFCs, *see* Requests for comments (RFCs)
RNG, *see* Random number generation (RNG)
Rounding strategies, 395
Routines, 99
Routing, 688–693
rtrim(), 509
Runtime errors, 188

S

Salt, 542, 547
SAPIs, *see* Server APIs (SAPIs)
Scalar types, 74, 80, 84, 85, 104, 106
Scope
anonymous functions, 149, 150
defined, 134
function arguments, 138, 139
global *vs.* local, 135–137
multiple files, 141, 142
named functions, 138
namespaces, 158, 159
outer() and inner(), 143
rules, 143
static variables, 139, 141
Scope resolution operator, 304, 308, 325
Selector expressions, 767
Self-calling function, 147
Self-invoking function, 147
Self-synchronization, 430
serialize(), 734
Server APIs (SAPIs), 2, 22, 29, 46, 47, 677
services.nginx node, 25
session_encode(), 735
session_get_cookie_params() function, 733
Sessions
adoption, 739
cat command, 732
concept, 729
cookie management, 733
cookies, 741, 742
data, 734–736
data-passing mechanisms, 730
filesystem, 730
fixation, 738, 739
functions, 743, 744
ID creation, 740, 741
ini directives, 733
in-memory solutions, 730
localStorage and sessionStorage APIs, 729
OOP API, 736, 738
security, 733, 738
tidying up, 742, 743
transparent SID support, 739
session_set_cookie_params() function, 733
