adding filter, 838
adding function, 840, 841
calling functions, 828, 829
comparison operations, 824
composer.json file, 807
controlling behavior, 839, 840
controlling escaping, 817–819
control structures, 821, 822
defining your own functions, 829, 830
DSLs, 806
escape contexts, 819
escaping, 813–817
examples, 808
extending PHP, 837
extending template, 834, 835
filtering, 819–821
functions, 827
include(), 830–832
inheritance, 834
instantiation, 808
iterable tests, 826
literals, 822
logical operators, 823, 824
macros, 832, 833
mathematical operators, 823
miscellaneous operators, 826, 827
operators and expressions, 822
PHP functionality, 807
reasons, 807
sequences and mappings, 813
string tests, 825
template, 809–811, 835–837
test sub-expressions, 825
variables, 811–813
TwigFilter class constructor, 840
TwigFilter class instantiation techniques, 839
Type casting, 87
Type checking, 123
Type coercion, 76, 86, 104, 164, 211, 266, 379, 439, 440
comparison, 408, 409
numeric string, 405–408
Type juggling, 76
Type system *vs*. type declaration, 110
tz database, 608
