```
            echo fread($stream, 8192); // Read in 8KB chunks
            flush();
        }
        fclose($stream);
    }, $filename, [
        'Content-Type' => $mime,
        'Cache-Control' => 'max-age=86400, public',
    ]);
}
```

Here, we then define a corresponding route if you wish to test chunked downloads:
