Notes

1

This finding, containing the introduction of the ultimate energy quanta for the oscillator, was reported by Max Planck again before the Physical Society of Berlin on December 14, 1900. That was the birthday of the Quantum Theory. *(Max von Laue)*

2

A Lecture delivered by Max Planck in Göttingen on June 17, 1946.

3

A Lecture delivered by Max Planck in November, 1941.

4

A Lecture, delivered in May, 1937.
