chemotherapy as well as how I scrutinize a poem. It's all about trying to know who I am wherever I am."[92]

Lorde advanced a poetics of diaspora through a creative discursive mapping of her identity in divided Berlin, connecting with the city as a significant and personal point of return. Whether for reasons of health, critical reflection, poetic inspiration, or advocacy, her commitment to the peoples of Berlin and to wrestling with the complexities of geopolitical division helped her further a concrete awareness based on location and the dreams of working across lines of difference.
