42. Additionally, popular musicians such as John Lennon and Yoko Ono (“Angela”) (1972), the Rolling Stones (“Black Angel”) (1972), Santana (“Free Angela”) (1974), and Sun-Ra (“Music for Angela Davis”) (1971) performed or released music about her life and case during her imprisonment, and state-sponsored solidarity campaigns from countries around the world and in particular in the Eastern bloc implored officials to consider the political nature of the case through massive public demonstrations and letter-writing campaigns.

Davis would also later capture the effectiveness of this campaign in her autobiography, quoting the presiding judge, Richard Arnason, when he ruled Davis was eligible for bail after months of detainment: Arnason mentioned “the mail I’ve received in the last two days and the telephone calls, none of which I have personally taken, but which my staff has taken, from … a tremendous number of states and telegrams from foreign countries. It is a case of amazing interest” (Davis, *Angela Davis*, 335).

57. Davis’s vision of this shared destiny across lines of incarceration was further expressed in her eulogy for George Jackson, who was killed in San Quentin amidst a confrontation with prison guards in August 1971, after he was targeted for years for his political writing and organizing. Davis issued a statement to the press and then wrote a eulogy for Jackson, which Bettina Aptheker documents in her account as a legal team member and close friend/collaborator with Davis. A day and a half after hearing of his murder, with profound grief and sleepless, Aptheker writes, Davis sits “in front of the typewriter in her cell after George’s death. … The place was littered with cigarettes, and dozens of pieces of paper, many of them containing half-completed sentences, random words and thoughts—drafts of the public statements she was now completing” (Aptheker, *Morning Breaks*, 42). In her eulogy, Davis mentions “walls” several times, which signify as a site to project Jackson’s legacy in the face of extreme repression. For example, she honors him for a continued “source of inspiration to all our sisters and brothers inside prison walls and outside.” She adds, “George, from behind seemingly impenetrable walls, has placed the issue of the prison struggle squarely on the agenda of the people’s movement for revolutionary change. His book reveals the indivisible nature of the struggle on the outside of the prison system with the one inside.” In this urgent, mournful missive, written from her cell to be shared at Jackson’s funeral, Davis highlights Jackson’s profound contribution to her life and to a worldwide community of others, as a visionary for connecting activism on both sides of prison walls, a feat that transcended the “seemingly impenetrable” nature of this manifestation of social division.
