trade, contemporary trafficking, and the Palestinian Naqba (catastrophe). There was never a Jewish Holocaust.

ID theft in this context also includes ID obfuscation. For example, there is the misapplication of one people's victimology to another's ID. The ISC, led by the radical pro-Palestinian South African NGO Confederation, SANGOCO, and trade union CONSATU, determined to apply their Apartheid history to the Israeli narrative as a later justification for what was to become the global BDS (boycott, divestment, sanction) campaign.

As BDS "stormtroopers" invest the kosher sections of French supermarkets, rushing their trolleys past terrified cashiers, to burn their loot outside, French Jews cannot help but recall the Nazi and Vichy collaborator slogan "Kaufen nicht bei Juden" (Do not buy from Jews). Attacking the kosher shelves (not just trashing Israeli products) is now tested under the laws regarding racial embargoes, diplomatic ostracism, and a Law of Return for all Palestinian "refugees" to replace the Aliyah law for Jews.

The vector for the post-Durban program was to be the anti-globalization World Social Forum (WSF), headquartered in Porto Alegre, Brazil, and its regional satellites, the most active being the European Social Forum (ESF).[3] Founded as a counterfoil to the World Economic Forum, and convening a few weeks before the Davos meeting, the most outspoken NGOs of the WSF would sometimes become guests at Davos the following year—their gentrification providing photo opportunities with the radical-chic for representatives from the wealthy North.

The WSF is now a focal point for the leftists, Green ecologists, pacifists, Church liberals, asylum-seekers, migrant groups and indigenous, along with Islamist radicals to commingle. It has also become a global apparatus for recruitment, opinion-molding, agenda-setting, resource-seeking, and image-molding, hijacked for the Palestinian cause. It is there that the big lies are refined for media coverage, lawsuits, and campus campaigns. There, calendars, slogans, and campaigns are born, as in the case of the flotilla and flytilla.[4] Attendance is soul-shattering, sitting in a stadium with thousands screaming "Viva la Intifada Global," marching in carnival-style to the samba beat in Porto Alegre with mulatta indigenous "Gays against Zionism," where every nauseating antisemitic expression is a trial balloon for replication in Europe.

The early WSF rallies catered to victims of slavery, sexual abuse, trafficking, and globalization. In 2012, the gathering was completely hijacked as "WSF—Free Palestine": 127 seminars on how to best harm the Jewish State and, by association, the Jewish people and their supporters or friends.
