Develop governmental pockets of competence in the country bringing together the judiciary, justice and prosecutorial and police functions.

4. Counter-Narcotics

Build and sequence the introduction and use of the core tools of counter-narcotics—crop eradication, interdiction (arrests and prosecutions) and economic development.

Increase investment in development—infrastructure and industry.

Enhance drug interdiction efforts.

In lieu of massive eradication, adopt an 'Afghan centric' approach including public information campaigns, voluntary restraint, full delivery of announced programs for alternative livelihood, and provision of all the services for alternative crops now provided by drug traffickers—(agricultural extension, futures contracts, guaranteed marketing, financing and micro finance).

Beware of negative effect of large scale eradication without careful support mechanisms and programs of support for the government and its programs.

5. Economic Development and Reconstruction

The Afghan Government should get more credit for development and it needs help to improve its accounting and anti-corruption defenses.

Get Afghans to appoint an Afghan development czar.

Spread development more evenly around the country

Follow up quickly clearance of Taliban forces from provinces with development assistance.

Enhance infrastructure development

6. Afghanistan and its Neighbors

Embark on a sustained and long term effort to reduce antagonisms between Afghanistan and Pakistan with the goals of rooting out support for the Taliban and its ideology, closing down extremist madrassehs and training camps, and encouraging a relaxation of Pakistani restrictions on transport of goods to Afghanistan. The Afghans should continue to be urged to accept the Durand line as its border with Pakistan.

Pakistan needs to be encouraged to regain physical control in the FATA.

An effort needs to be made to resume conversations with Iran to coax out greater cooperation in helping to stabilize Afghanistan.

A regional peace process should be developed beginning with confidence building measures with the eventual goal for Afghanistan becoming a neutral state protected by commitments against interference in its internal affairs, clandestine weapons supply and a comprehensive regime to support the flow of trade.
