- The Combatant Command evaluates the claim and recommends reimbursement of those items it deems reasonable and supportable and validates that the support was provided in connection with U.S. WOT operations.
- The Under Secretary of Defense for Comptroller evaluates the claim to ensure the reimbursement is based on adequate documentation and that expenses incurred are reasonable and credible.
- DoD obtains the concurrence of the Department of State and OMB for the proposed reimbursement.
- The Under Secretary of Defense for Policy and the Department of State confirms that reimbursements are consistent with USG national security strategy and do not unfavorably affect the balance of power in the region.
- The Under Secretary of Defense for Policy and the Under Secretary of Defense for Comptroller recommend to the Deputy Secretary of Defense that payment to the country is reimbursement for support to the WOT and that the payment is based on adequate documentation or a comparison with potential U.S. costs for execution of a similar mission or activity.
- The Deputy Secretary of Defense notifies Congress of the intent to reimburse the country with CSF.
- DoD reimburses the country 15 days after the congressional defense committees are notified.

The Department seeks to improve its CSF reimbursement process, reviews it regularly, and has issued revised guidelines that implements recommendations from the GAO and DoD OIG.

Consequently, the Office of the Under Secretary of Defense for Policy, the Office of the Under Secretary of Defense for Comptroller, CENTCOM, and the Office of the Defense Representative, Pakistan (ODRP) agreed last year to request greater documentation from Pakistan. As a result, ODRP increased its oversight of the claims and recommended that a significant number of Pakistani requests for reimbursement be deferred pending receipt of additional documentation, or denied altogether. To ensure a completely impartial and thorough assessment of these changes, the Under Secretary of Defense for Policy – with the strong concurrence of the U.S. Ambassador to Pakistan – asked the DoD IG to conduct a management review of the CSF program in April. We will continue to work closely with the DoD OIG and others to address their recommendations and suggestions on how to improve this important program.

IMPORTANCE OF PAKISTAN TO U.S. NATIONAL SECURITY INTERESTS

Since 2002 Congress has appropriated $7.3B for the entire CSF program and Pakistan has been the largest single recipient, receiving approximately $6B in reimbursements following a $373M reimbursement this week. CSF reimbursements to Pakistan have been a significant factor in Pakistan's ability to assist U.S. operations in the WOT. The key question that Congress has raised over the last several months is, "What are the U.S. taxpayers getting from Pakistan for this $6B?"
