END NOTES

[1] CSF has funded a broad range of Pakistani military operations, including navy support for maritime patrols and interdiction operations; air force support for combat air patrol, reconnaissance and close air support missions, airlift support, and air traffic control; army military operations in the FATA; and increased management requirements at the Pakistan Joint Staff Headquarters.

[2] According to U.S. embassy officials in Islamabad and unclassified U.S. intelligence documents, since 2002, al Qaeda and the Taliban have used Pakistan's FATA and the border region to attack Pakistani, Afghan, U.S., and coalition troops; plan and train for attacks against U.S. interests; destabilize Pakistan; and spread radical Islamist ideologies that threaten U.S. interests.
