```
    </head>

    <body>

        <?php
            if( isset($_COOKIE[“name”]))
                echo “Welcome “ . $_COOKIE[“name”] . “<br />”;

            else
                echo “Sorry... Not recognized” . “<br />”;
        ?>

    </body>
</html>
```

Deleting Cookie with PHP

Officially, to delete a cookie you should call setcookie() with the name argument only but this does not always work well, however, and should not be relied on.

It is safest to set the cookie with a date that has already expired

```
<?php
    setcookie( “name”, “”, time()- 60, “/”,””, 0);
    setcookie( “age”, “”, time()- 60, “/”,””, 0);
?>
<html>

        <title>Deleting Cookies with PHP</title>
    </head>

    <body>
        <?php echo “Deleted Cookies” ?>
    </body>\
</html>
```
