Preserving Keys 265
Modifying sort( ) Behavior 266
By Size 267
Sorting by Callback 269
Natural Sorting 271
Randomizing Arrays 272
Functional Array Processing 274
Transforming with array_walk( ) 274
Creating New Arrays with array_map( ) 277
Creating New Values With array_reduce( ) 279
Multi-dimensional Arrays and Recursive Functions 280
Very Large Arrays and Generators 283
Summary 284

Chapter 6: Object Fundamentals 285

Why OOP? 286
Making Objects 286
New Objects 287
Cloned Objects 289
Classes 290
Defining a Class 291
Property Getters and Setters 294
Property Hooks 296
Constructors 297
Destructors 299
Magic Methods 300
Anonymous Classes 302
Class (Not Object) Context 303
Static Members 303
Static Members in Class Context 306
Class Constants 307
Private Constructors 308
