I

iconv functions, 601
idate() function, 634
IDE, *see* Integrated development environment (IDE)
Idempotence, 687, 688
illegal_chars, 527
Imperative programming, 36, 163
Indexed arrays, 212
Inheritance, 196, 316, 644, 645, 834
accessing parent members, 323–325
defined, 318
DRY principle, 318
final classes, 328, 329
late static binding, 325, 326
parent and child classes, 319, 320
readonly, 326–328
subclasses, 318
ini_set() function, 30
Injection attacks, 68
Injection vulnerability, 741
Integer keys, 209
Integer overflow, 388, 389
Integers, 387–390
Integrated development environment (IDE), 96, 130
Interfaces
concepts, 311
constants, 317
declaration, 312–314
extending, 316
multiple, 314, 316
SimpleXMLElement object, 311, 312
Interface segregation principle (ISP), 658–660
Internal character encoding, 524
internal_encoding, 524
Internal error conditions, 187
Internet, 678
Internet application protocols, 678
Internet Engineering Task Force (IETF), 429, 679
Interoperability, 424
Intersection types, 116, 117
intl functions, 601–603
Introspection, 352
is_numeric() function, 81
ISO-8859, 423, 433
ISO-10646, 426, 428
ISP, *see* Interface segregation principle (ISP)
is_uploaded_file() function, 710
IteratorAggregte interface, 622

J, K

Japanese Industrial Standard (JIS), 424
JavaScript Object Notation (JSON), 683, 704, 706
JIS, *see* Japanese Industrial Standard (JIS)
jQuery object, 786
JSON, *see* JavaScript Object Notation (JSON)
json_decode() function, 705, 706
json_encode() function, 314

L

Lambda Calculus, 99
Language extensions, 600–603
