Subject: Secret Decision

Brothers in Islam,

Right from the sixties, when Somalia realized civilian government and the military regime led by Siyad Barre which was defined by injustice, the practice of the Sharia law was undermined and grossly violated. The Sharia law ordains the path of righteousness and warns against bad deeds.

In the same vein, the over 10 years of disintegration marked gross violation on the teaching of Islam. The population was divided by the warlords who caused pouring of the human blood in large numbers and weakened the belief of the people.

As you are all aware, the so-called Transitional government formed for Somalia is hunting the Somali religious leaders and the Muslims in general. They have influenced the International Community to believe that the Somali religious leaders are Al-Qaeda. You very well know that its agenda is to bring the Ethiopian troops in order to use them and kill the Somali population. As you are aware, there are faction leaders who are fighting this government without subscribing to our vision but would be vital in using as a bridge.

In order to react to the threats posed by the plan of this government, which is aimed to inflict sufferings on the people of Somalia who are Muslims, we have decided the following agenda points as shown the on the next pages for your implementation.

Following the tangible progress made by the Islamic Courts in expanding its political programmes that restored just administration founded on Sharia law.

In view of the findings on the programme contents used in the awareness campaigns, and the reception hailed by the population on plans to establish Islamic State that would herald justice and
