unity.

In view of the findings on the dire need for expansion of the Islamic Courts Administration to all parts of Somalia to refocus public attention on justice.

In view of the findings on the need to derail the so-called Transitional Federal Government and the Regional Administrations who are holding the population as a hostage.

The following decision was made:

I. To open Islamic Courts in all districts of Puntland and Somaliland in collaboration with the clan elders and the Traditional leaders

II. That the representatives of the Islamic Courts in Puntlan have to obstruct Militias and arms flowing to the TFG from Puntland and the Ethiopia border

III. Plots to mar the existing relationship between the TFG, Puntland, Somaliland and Ethiopia have to be employed

IV. Penetration into the armed forces of Puntland and Somaliland has to be made and clan used as an instrument to unfasten the cohesion

V. The heavy and the light weapons used by Puntland and Somaliland armed forces have to be purchased with hard currency in secret deals.

VI. If that fails, the custodian of the heavy weapons should be approached with an offer.

VII. Cooperation has to be made with criminals and hard currency provided as motivations to assassinate the officials of the administrations (TFG, Somaliland & Puntland)

VIII. A traditional leader has to be crowned for each and every Sub-clan and the required financial support extended.

IX. Religious lectures indirectly influencing the public should be put in full gear

X. Friction with these administrations should be avoided and instead the taxes paid as required

XI. Strong allies should be identified within the cabinet of each of the administrations using clan elders and the traditional leaders as an entry point while flexibility is maintained and support provided.

XII. Generous support should be given to the Oromo’s and the ONLF to weaken the capability of Ethiopia which is our primary enemy as well as the administrations they are using to pursue their agendas.
