VII: BANK OF JULIUS BAER

Bank Julius Baer is part of the Julius Baer Group, a private banking group with its headquarters in Zurich. WikiLeaks published a number of documents relating to accounts held in Baer's Cayman Islands branch, resulting in a legal suit against WikiLeaks in the USA, which it successfully defended.

The extracts quoted here include part of a statement given by Rudolf Elmer, the former Baer employee who leaked the information, as well as a document relating to an individual bank account.
