UPDATE 1644D*
***Event re-written IAW First Impression Report*

The purpose of the patrol was to clear the route from PB NABI to a Red ISO container (GR 41 SPR 7355 5012) in order to link up with IEDD team moving from SANGIN DC and guide them into PB NABI for a UXO task. At 1203D*, the foot patrol consisting of 10 x GBR OMLT left PB NABI for the red ISO. When FRIENDLY FORCES reached Red ISO, they established a cordon in order to wait for the IEDD team. At approximately 1255D*, at GR 41 SPR 73706 50328, 1 x OMLT personnel saw 1 x LOCAL NATIONAL on a motor bike approaching his position from the South. He believed the LOCAL NATIONAL was a suicide bomber. For the last two weeks, intelligence has repeatedly reported the threat of two suicide bombers on motorbike in and around the SANGIN Bazaar. When the poss INS was 35-40 meters form his position, he fired 4 warning shots (5.56mm) into the close to the poss INS. The poss INS did not alter his speed or direction and continued directly for the OMLT personnel. At 20 meters away he fired continuous shots (details to be confirmed) into the poss INS centre of mass. The motorcycle crashed into the ditch and caught fire.

On inspection the LOCAL NATIONAL was immediately confirmed as dead and not a suicide bomber. At 1345D*, FRIENDLY FORCES brought the body to SANGIN DC hospital with multiple GSW to the chest and immediately redeployed to their previous position IOT escort the IEDD team to NABI to commence the UXO task.

19th November 2008

J COY 42 CDO conducting a admin move to MOB LKG observed 1 x LOCAL NATIONAL vehicle approaching the convoy and fired 2 x Miniflares as a warning. The LOCAL NATIONAL vehicle did not change course or slow down so FRIENDLY FORCES fired 2 x RDS 9mm (WARNING SHOTS) into the ground in front of the vehicle. It swerved and stopped. A visual check of the LOCAL NATIONAL vehicle carried out and the patrol continued on task. Subsequent investigation rev-ealed that a LOCAL NATIONAL child was present in the vehicle and received a fatal Gun Shot Wound.
