Start the development server:

```
php artisan serve
```

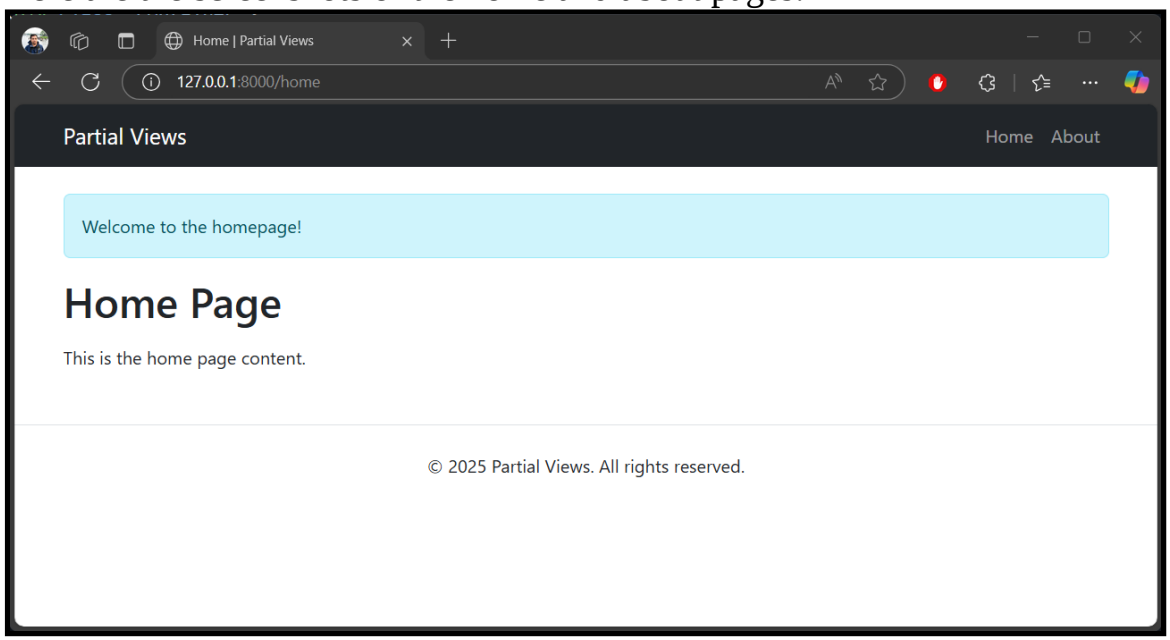

Open your browser and test:

- Home: http://127.0.0.1:8000/home
- About: http://127.0.0.1:8000/about

You should see:

- A **shared navbar** at the top.
- A **shared footer** at the bottom.
- An **alert box** displaying a custom message on each page.

Here are the screenshots of the home and about pages:

Here’s the about page:
