also provided a method for Negroes to struggle to secure moral ends through moral means. Thus, it provided a creative force through which men could channel their discontent.

Ultimately, victory in Montgomery came with the United States Supreme Court's decision; however, in a real sense, the victory had already come to the boycotters, who had proven to themselves, the community, and the world that Negroes could join in concert and sustain collective action against segregation, carrying it through until the desired objective was reached. In conclusion, then, Montgomery gave forth, for all the world to see, a courageous new Negro. He emerged, etched in sharpest relief, a person whom whites had to confront and even grudgingly respect, and one whom Negroes admired and, then, emulated. He had thrust off his stagnant passivity and deadening complacency, and emerged with a new sense of dignity and destiny. The Montgomery Negro had acquired a new sense of somebodiness and self-respect, and had a new determination to achieve freedom and human dignity no matter what the cost.
