sought to share the wisdom of these extremely bril iant people. “Light upon light. Al ah guides to His light whom He wil . He has knowledge of al things.”

We made three groups to carry out the project activities —a Programme Management Group, an Integration and Flight Testing Group and a Subsystems Development Group. The first Group was made responsible for looking after the overal executive aspects of SLV-3: project management, including administration, planning and evaluation,
subsystems
specifications,
materials,
fabrication, quality assurance and control. The Integration and Flight Testing Group was assigned the tasks of generation of facilities required for integration and flight testing of SLV-3. They were also asked to carry out the analysis of the vehicle, including mechanical and aerodynamic interface problems. The Subsystems Development Group was given the job of interacting with various divisions of VSSC and was made responsible for ensuring that al technological problems in the development
